Beefmaster Breeders Welcome to Emmons Ranch Beefmaster Production Sale

Dear Beefmaster Breeder,

Get Ready! Emmons Ranch Production Sale will be held August 20th at the Brazos County Exposition Complex in Bryan, Texas. Steve and Cindy Emmons have been breeding BBU Beefmaster since 1975 and their involvement in all things Beefmaster has expanded and become more impressive with every calf crop!

Emmons Ranch reputation for producing superior Beefmaster seedstock in both the show ring and the pasture is well documented. Emmons Ranch Beefmaster has attained winners throughout the country and their individuals have helped other Breeders attain that same success. Throughout the Beef industry Emmons Ranch individuals are proving they have the necessary ingredients to help you build a better Beefmaster product. Their goal is to offer you the quality Beefmaster individuals that will help you succeed in whatever your Beefmaster breeding program demands. Emmons Ranch is dedicated to selecting individuals that first meet their criteria for visual appraisal and then carry the predictable genetics that increase the potential for a successful result and then verified documented performance and carcass traits are used to help ensure the quality and profitability of the final product. Only the individuals that have passed all these qualifications are being sold. This is the "Good Stuff" and these are the good-looking cattle that will perform.

Emmons Ranch sale offering this year is highlighted by the addition of the pick of the sale lot! Pairs with exceptional individual quality, predictable genetics and with tremendous product at side. Bred Heifers that carry the predictable genetics you need to build a better Beefmaster with calves in the belly that will enhance any breeding program. Open Heifers that have the supreme quality and same predictable genetics that will bring the breeding value you desire. One superior Herdsire - Elvis and Two Herdsire Prospects right off the show string that are shining examples of the "Good Stuff" that you need to build a better Beefmaster. Semen opportunities on the EMS Herdsires that have proven through their production to be predictable producers that will help you succeed! Everything you need to build a better Beefmaster is here for your breeding program success story.

Every Year Emmons Ranch Production Sale is a fantastic Beefmaster event that will be held in an air-conditioned sale facility and sold entirely on video with the cattle there available for your inspection. We do have a sale offering film that will be sent via email and available at the Emmons Ranch and BBU website and the sale will be live on the internet at DV Auction. We invite you to join us Friday to inspect the sale offering and enjoy a wonderful social time and steak supper at the sale site. Then Saturday after the sale plan to attend the JBBA Heifer Show.

If myself or sale consultant Mike Green or Auctioneer Anthony Mihalski can be of any assistance in making purchases or selections do not hesitate to contact us.

See you in Bryan! Bruce Robbins

Dear Fellow Beefmaster Breeders,

On behalf of our family, we would like to take this opportunity to invite you to our production sale, August 20, 2022.

This year's offering includes 1 Proven Herd Sire, 2 herd changing Herd Sire Prospects, 5 Proven Donors, 5 Pairs and 3 N 1's, 34 Bred and Exposed Heifers and 7 Open Heifers. This includes 12 King George daughters, 6 Johnny Cash daughters, 6 Captain Britches daughters, 5 Bubba daughters, 5 Headliner daughters, 4 Bonfire daughters, 3 Elvis daughters, 3 King of Diamonds daughters, 2 Amazing Britches daughters and 1 Ring Of Fire daughter. Several of the females are polled and several are homozygous black.

Plus, we are offering some rare opportunities. The highly proven and predictable herd sire, Elvis, the super proven donor Lyssy's Siri Ryder, 4 daughters out of the highly proven 1140 Catchin A Dream Donor, 3 are sired by Bonfire and 1 is sired by King George, all are super donor prospects that you can build a herd around, and a fantastic, many times Grand Champion Bull, Bubba Made, that will take you straight to the top.

We are starting our 48th year of breeding high quality Beefmasters. Our goal is to stack the good ones on top of the good ones to make the great ones. We are constantly trying to produce the next major livestock show Grand Champion Bull or Grand Champion female. For Emmons Ranch to accomplish our goals, we must build cattle from the ground up. They must have impeccable skeletal structure, standing on exceptional foot and bone. They must have impeccable phenotype, exhibiting balance with neck coming high out of the shoulder, with exceptional muscle, a smooth fluid motion, and exhibit moderate frame size. We don't stop there, they must also be efficient, growthy, fertile and have milking ability.

If you are serious about building better Beefmasters, there is something in this sale that will work in your program.

BBU and Beefmaster cattle are all about good people. Cindy and I are blessed to have met so many fantastic people and have made hundreds of friends in the Beefmaster business. We hope you can join us for fellowship and fun with good friends.

Sincerely, Steve & Cindy

Elvis, scurred, is a unique mating adding performance and numbers to our cattle. He expresses the phenotype of long extended front, massive top, square hip and tremendous muscle, while possessing the "look" we strive for in our cattle. He ranks in the top 1% for \$M, CE and BWT, top 2% for SCR, 4% in WWT and MWWT, top 10% for \$T, YWT and REA and top 15% in Marbling. He sports a 15.7" REA with a 4.01% IMF, with a \$T of \$117.69 and a \$M of \$42.85. His babies come here small, avg BWT 64, jump up and hunt the "ninny". They are very athletic, vigorous and grow like weeds. The only reason Elvis is in this sale is we have cut down on our cow numbers. He sells with 250 straws of semen. We are retaining 25 straws for in-herd use only. We will not sell any Elvis semen. Elvis is an easy keeper, stays fat all the time and is easy to handle. You can turn him out with a LOT of cows and he will cover all of them and look good doing it. You don't get an opportunity to purchase a proven herd sire like this very often. He's a good one.

Talk about tough—tears will roll when this guy leaves. He is a crowd favorite— everyone loves him. He doesn't have a mean bone in his body. When he couldn't fit in our squeeze chute, Steve couldn't stand to be rough on him trying to get him in, so we just bought a new, bigger chute. Does that mean he's just an old softy for these animals? You bet he is and we wouldn't have it any other way. "Frankie" as he is affectionately called, has had a huge show career—Grand Champion Bull at the State Fair of Texas, State Fair of Louisiana, Res Champion at the Fort Worth Livestock Show, Grand Champion at the Houston Livestock Show, Grand Champion at Beefmaster U. This is one massive bull that is easy keepin', straight topped, huge hipped, massive middled, big footed, with a beautiful front and impeccable structure. His dam, Bonfire's Barbie, has produced the great ones. We lost her this year so there won't be any more—just a few embryos. If you are serious about the BM business and making the good ones, here is your chance to make your mark. He sells with 152 straws of semen from 1 collection, and a lot of tears!

This is one "rippin" good bull. His dam, EMS Queen of Dreams 777, has hit the bullseye when it comes to producing herd sires. We sold a full brother to Rip to Jerry and Tammy Thomas, Bet On Brady, for their new up and coming herd sire. We are currently showing a full brother, Bubba Fever. Check out the massive bone and foot on this bull, the massive middle and top. He may have the most neck extension and perfect neck placement of any BM bull I have ever laid eyes on. His pedigree is proven to produce the good ones. He is backed by generations of great cow power. If you are looking to improve your herd and move to the next level, you NEED this bull. He's a herd changer.

EMS Miss Buff - Cow Family

EMS Miss Buff is the ultimate Beefmaster cow that personifies what is great about the Beefmaster breed. She passed away in 2017, but her legacy is alive and well at ER. She has tremendous bone, length, and strength of top. Her muscle pattern carries down low, her udder is perfect, and her predictability is unquestionable. Miss Buff has proven performance herself, as well as in the show ring. Her sons and daughters are proven throughout the Beefmaster breed in the show ring, as well as the sale ring. She is either mother, grandmother or great grandmother to 7 National Champion Bulls, 1 Res National Champion Bull, 4 Miss Beefmaster America's, 2 Res Miss Beefmaster America's and countless JBBA champions. Her latest accolades were grandmother to the 2016 Houston Livestock Show Grand Champion Female, the 2016 National Champion Bull, the 2017 & 2018 Houston Livestock Show Grand Champion Bull and the 2018 National Champion Bull. Great-grandmother to the 2019 & 2020 Grand Champion Bulls at the major Texas Livestock shows. Needless to say, she has been a mainstay at Emmons Ranch. Any time you have the opportunity to add Miss Buff into your herd, don't hesitate. Females like her are a once in a lifetime experience.

We sold Amazing Pearl as a heifer and regretted it ever since. So when we had the opportunity, we purchased her back from Steven Anderson in his Herd Reduction sale. There were only 3 of these ever produced. This family of cattle gets 'er done every single time. The Amazing Ace family doesn't miss. Pearl has the muscle, the wheels, the looks and the genes to be someone's #1 donor. You can land an airplane down her top. There won't be any more of these, a unique opportunity to start building your name in the BM world. Check out the King George show heifer at her side—she's a winner. Start producing your own show heifers right here—the right kind. Flushed twice. Flush records on request.

This is one nice Sugar Bear daughter out of a Smooth Cavalier daughter that we purchased from E and E Ranches when she was a heifer. To stick around this long, she had to do a great job. She MILKS! And is gentle and has a good calf every time. Just look at the Bubba heifer on her side. She knows how to get 'er done. This is one you need to take home and enjoy. She's a pleasure to own!

This is one beautiful female: perfect sized, exceptional fronted, square hipped, a top you can eat dinner on, plenty of muscle, beautiful udder. You name it, she has it. She has stars in all the boxes. This girl can make it happen. Look at the Bubba baby at her side. What a stout baby and she is raisin' it: this girl isn't going hungry. You Juniors better star this one! She should hang lots of banners for you. We have flushed her 4 times. Flush records available on request.

Beauty and performance all in one! Consistency and correctness show in this Captain Britches x Buff's Sugar Pie daughter, a full sister to our great donor, EMS Pistol Annie. This cross works every time---Huge top, long front, deep muscle, big bone. She possesses all the characteristics that provide economic importance. Miss Texas was in the group with King George when he was injured and she missed her 2022 calf because of his injury. She is bred to EMS Bubba Gump, which will be one of his first calves. That's exciting. Her 2020 heifer sells as Lot # 10. Miss Texas is in her prime—take advantage of this opportunity.

Predictability is front and center in this lot. Every parent and grandparent in her pedigree has played a big role at ER. This heifer is great hipped, good boned, straight topped and sound in every way, just like her awesome mama that sells as Lot 9. Bred to Elvis for a low BWT, big numbered baby. This heifer and her mama will both be good investments in your arsenal.

This cow is definitely a producer as you can see from several offspring offered in this sale, Lot 12 and Lot 13. She works with every bull we have used on her and raises them. As you can see, she has the bone, muscle and the femininity to produce those good babies. She has the "look" and the performance the beef industry demands. Stout bull calf at side that will be eligible for our Bull Sale in 2024 or can be your next herd sire for your operation. Get on board here!

Bubba is built as good as they get—structurally and phenotypically. He consistently stamps his calves with unmistakable class, style and the "Bubba butt". The apple doesn't fall far from the tree here with Bet On Star. Big volume, sweet fronted with a neck that attaches high, perfect muscle, big hipped and topped with amazing structure. Her Elvis baby will hit the ground small and take off running.

Show heifer maker galore! Beautiful necked, soggy middled, sound, level and balances out to perfection. Straight topped with big muscle. Her dam is a full sister to Bonfire and Red Ryder. She is a genetic powerhouse that will produce great ones. Think of what you can produce from this mating. Top 4% for \$M. Her Elvis baby in the belly should be a growing machine. A no-brainer for your program.

Oh my—what a "Honey" she is. Her dam, Goldilocks Honey is producing some amazing calves out of her first flush. Her grandma, Buff's Goldilocks (Miss Buff's last calf) won Rhaina the \$10K scholarship at San Anton. Add in Bubba, the winningest bull in BM history and they combine to make one that ties it all together—look, power, squareness, capacity and soundness. The genetic potential runs thick, top and bottom. With a \$M of \$39.22, top 2% in the breed, her maternal value soars. Bred to Elvis, whose average BWT of 64 pounds, makes calving easy. Here's a keeper and one that will really leave a sting when we load her in the trailer out of here. Make sure that trailer is headed to your house.

Anyone need any "Cash Flow" or do you say "I Like Cash"? Here's your chance to gather some "cash" up! Two greats have been lined up for you here—about as close as we can mate 'em. A beautiful udder—a result of Miss Buff top and bottom. These girls are stout boned, deep sided, big backed and hipped and move as sleek as a cat—the structure we harp on. Can't even imagine how good the Amazing Britches babies will be. Start your "Cash Flow" in the Spring when the Amazing Britches babies hit the ground. You'll be touting, "I Like Cash"! Grab 'em both and double your "cash"

Maximum capacity! These girls are beautiful uddered—get that from both sides, choke necked, sound structured and as maternal as a cow can be. We have lined 2 greats up, about as close as we can mate 'em, and have produced females that their offspring should explode with horsepower. Both sire and dam have done everything we expect from an animal and we have combined them to produce superiority. Grab 'em both so you can "Cash It In" and watch as the "Cash Works" when the Amazing Britches babies hit the ground.

Buff's Goldilocks is the last embryo produced by Miss Buff. So you can just imagine how special she is at ER. She won many Grand Champions in her show career, including the \$10K scholarship at San Anton. If you look at the pedigree of these females, you can see every grandparent is a big dog at ER, some of the top animals in our program. Study the cut of these great females, very complete, neat fronted with good rib shape and muscle, and oh-so feminine. Bred to Amazing Britches who has an average BWT of 64 lbs. Everybody needs at least one of these! Champions producing Champions.

Look at the extension and length of body this female is carrying. The 6 Essentials were her blueprint. She possesses all the characteristics that provide economic importance, plus she's scurred to boot. Her baby in the belly by Amazing Britches should add another dimension to this lot.

Captain Britches x Miss Buff daughters is a combination that works. This female is a full sister to Pistol Annie and we all know how great that female is. Miss Hot Britches is a classy, beautiful, feminine female with bone, sweet front and massive hip. She is a show cattle producer—champions are in her productive future. Add in the baby in the belly by Amazing Britches and the possibilities are endless.

Pure "CASH" HERE! This little hottie gets ***'s. Her mama, great Motown Donor female 860, owned by Trey Johnson, is a producing machine. One of her offspring is VFF Crown Royal, who has sired some great ones for Darrell Glaser. Johnny Cash is still siring the great ones. This gal is hard to fault and so correct in her build—stout hipped, lotsa bone, big bodied, long fronted. You can dream about "Cash" here, breed her right and the "Cash" will roll in. Big possibilities with this gal.

EMS Stylish Jezzy - Cow Family

MISS BEEFMASTER AMERICA 2010! What an awesome female, a favorite here at Emmons Ranch. EMS Stylish Jezzy has all the attributes anyone could ask for--amazing eye appeal, pedigree (own daughter of the legend--Jezabelle), and performance. Her dam Jezabelle, one of the breed's legendary matrons, brings tremendous predictability to the table. Her performance data speaks for itself, WW 604, YW 898, REA 12.62, IMF 3.5, REA/SWT 1.42. She has produced the 2012 Miss Beefmaster America, the 2015 Miss Beefmaster America, the 2014 National Champion Bull and numerous JBBA champions. What more could you ask for? A prime example of our motto; "Where good looking cattle perform." You can have it ALL!!

Stylish Jezzy has been a mainstay at ER for many years, Miss BM America in 2010, and many more winnings. She has produced soooo many champions at ER, both female and male, including EMS Fire House, National Champion Bull. Any time you see Jezabell in the pedigree, you are talking big time herd bull producers. Jezzy does not flush anymore, so she is a lady in waiting at ER, where the great ones never leave. Sofie follows along in her mama's footsteps—a champion herself and producing champions. She has amazing eye appeal, they just don't get any deeper, wider or sounder. Check out this young stud at her side. Big possibilities for him. This is an exposed pair you want to grab a hold of. There won't be anymore.

This gal is hard to fault and is so correct in her build. Her entire pedigree, every animal, has had a major impact at ER. These animals are all winners, in one aspect or another. Winners do not just happen in the showring, they also happen at the ranch and at the feedlot. Consistency and predictability are as strong as they possibly can be. You know what you are going to get every time. George's Jet is flat good. Pure class here with long, smooth front, straight thick top with exceptional muscle and square hip. The Elvis baby in the belly should get here small, then explode. What else can I say—here is a keeper. REA 9.06 2 days too young for ADJ.

Homozygous Black ** Polled**Built Right**Genetics—You Betcha! Mating King George back to Headliner progeny is a popular cross for us. This female is backed by many favorites at ER. Stylish Jezzy—Miss BM America, Curly Sue—many times champion, Smooth Georgia—Miss BM America and the list goes on. She checks all the boxes and is deep bodied, square built, long necked and heavy boned. Her calf X Amazing Britches is destined to be homozygous high quality. Don't penalize her for being born in 0 degrees.

Miss Sugarbelle - Cow Family

Miss Sugarbelle is a picture perfect donor. She is an own daughter of a legend in the breed-Jezabelle. Miss Sugarbelle adds power and thickness to her offspring, as well as cleanliness and eye appeal. She has produced the 2015 National Champion Bull, the Grand Champion at every major TX livestock show, and numerous herdsires throughout the breed. She is a "bull" producer. This family of cattle is predictable and with that comes profit. Build your program around offspring of this proven donor and watch the dollars roll in.

Some of the greats at ER are packed in this donor female—Bonfire, EMS Amazing Ace, EMS Johnny Cash, Miss Sugarbelle. All of these animals have made a huge impact on our program. This Bonfire daughter is big topped, square hipped, heavy muscled, beautiful fronted. A Bonfire daughter was the high selling lot in Clark Jones recent sale. Cash'N In is a big milkin' cow that gives it to her calf-not hard doin', hard workin'. She weans a heavy one every time. Look at this Bubba stud at her side—Herd Sire deluxe. We flushed Cash'N In twice in 2021. Flush records on request. Better not let this one get away—there won't be any more of these!

Miss Sugarbelle daughters are few and far between these days. Sugarbelle crossed with Headliner gives maximum predictability. Raven is a no miss female, taking after her mama. Miss Sugarbelle, daughter of the legend, Jezabelle, adds power thickness, cleanliness and eye appeal. We sold Raven's heifer, sired by Bonfire, in our 2021 sale for \$12K. Raven has the familiar Headliner groove running down her loin, along with sound travelin' and stout muscle pattern. She is a producing machine. We flushed her to Bonfire once and got some amazing offspring. Raven sported a 11.50 REA with almost a 4 % IMF and is still one gorgeous female. Her pedigree is a list of ALL STARS at ER. Beauty and Performance—standard equipment. Get her while you can.

EMS Color Me Sugar - Cow Family

EMS Color Me Sugar was my personal pick out of all our Captain Sugar daughters. I hid her in the back pasture so no one could see her! She was the epitome of a great donor cow-tremendous volume and muscle, straight top and beautiful extended front end. Her performance was also at the top with a 14.5 REA and a 4.0 %IMF. Beauty and performance all rolled into one magnificent female. She is the dam of EMS Ring Of Fire that made a tremendous mark in the herd of Clark Jones. You can only imagine how many tears I cried when we lost her. But she lives on with her mark in so many great individuals.

Violet's grandma, EMS Color Me Sugar, was one of my all time favorites. She was also the dam of EMS Ring Of Fire, who was an awesome sire for Clark Jones. There aren't many of these, so Violet is a rare commodity. She's good lookin', moderate sized, big hipped, has the look and the genetics to go long and score big. She has already scored with this King George show heifer at her side. This one will take you over the goal line. An exciting future for this package.

EMS Ring of Fire has been a maternal champion in Clark Jones program. Cross this Bonfire line of cattle on top of Johnny Cash females and excitement is created. Belle is deep sided, has loads of volume with that pretty front. Add to that, she is homozygous black and scurred. Create those black bulls the industry is demanding—they bring a premium. Bred to Amazing Britches, she may have another homozygous calf in her belly. Load her up today.

*THE BRAND OF CHAMPIONS Catchin' A Dream - Cow Family

Catchin' A Dream is making a large impact in our donor factory here at Emmons Ranch. We currently have 3 of her daughters on our show string. Each one of the prior daughters we have shown has separately been Grand Champion at almost every show in Texas. We have put 2 of these in the BPG Hall of Fame and we are currently flushing 2 of these daughters. She adds extra volume, muscle and eye appeal to her offspring. And her performance speaks for itself also. Where Beauty and Performance meet. What more could you ask for? She is the combination female. A prime example of our motto: "Where good looking cattle perform." You can have it ALL.

JE.

An opportunity that doesn't come along very often—King George x Catchin' A Dream. Queen Lola, polled, is a full sister to two of our top donor cows—Queen Elizabeth and Queen of Dreams. Very correct, smooth fronted, deep bodied and totally elegant. The next "Queen" of your herd can be found right here. She is backed by timeless mainstays at ER. This is the kind to buy.

Big, stout Bonfire daughters with the meat, muscle and depth you want to add to your program. Catchin' A Dream is one of the top donors at ER. We have 3 full sisters to these females on our show string. Bonfire daughters are on the forefront being highly sought after, with a Bonfire daughter topping Clark Jones' recent sale for \$27K. Combining these 2 remarkable animals, make 2 impressive females for you to pick from. BWT and CE should be a no brainer here since they are both bred to Elvis who is in the top 1% for CE and BWT. Who knows how many more Bonfire daughters will ever be offered for sale. Better hop on these while you can.

Here's one so many of you have been asking for. All I can say is, this mating is incredible —sound, deep and wide, easy keepin' and thick. We have already put 2 full sisters in the BPG Hall of Fame and 2 more are knocking on the door. Two full sisters are already making huge statements in our donor herd. Bonfire daughters are few and far between, are in great demand and are topping sales. Take her to the donor pen, or just breed her and produce your own champions. Either way, let your "Dream" go on "Forever" here.

00212 - Cow Family

002/2 is a bull producing factory. A major requirement at Emmons Ranch is for females that can produce bulls. Every bull that we have mated her to, she has produced outstanding bulls. She was the dam of the second high selling bull at our 2019 Bull Sale. Talking again about Beefmaster Maternal value, you must have a female like this to produce those Herd Sires. Mated to Bubba, they created EMS Bubba Power, 2019 Grand Champion Bull at Fort Worth, San Antonio HOT Fair, State Fair of LA Livestock shows, and again in 2020 at the San Antonio Livestock Show. Being given a chance to own a female out of her is a win, win situation. Prove your upcoming herdsires through daughters of 002/2. She is in the top 1% of the breed for CE and BWT, so no worries about calving issues here. Take advantage of these 2 females offered here. Who knows, she might not have any more!

002/2 is what we at ER call a "Bull Producer". No matter what we mate her to, she produces herd sires that bring \$10K and up. We get very few females out of this tremendous cow. So, when you are given the opportunity to own a female out of 002/2, you better grab it. 009, polled, should follow in her mama's footsteps and produce herd sires because in the BM breed, not all cows can produce herd sires. She is built like you'd expect—stout boned, plenty of volume, lots of muscle and very feminine. Expect great things from this female that's as maternal looking as they come. Bull or heifer, the Amazing Britches baby in the belly should add even more value to this female.

EMS Reba - Cow Family

Miss Beefmaster America 2015. This is one awesome female with the phenotype, genetics and maternal traits that will soar your program to the top. Reba possessed a 13.42 REA, with a REA/SWT of 1.62. She is one of our young donors passing on the predictability and consistency of many years experience with this line of cattle. She is a prime example of our motto: "Where good looking cattle perform." You can have it ALL!

Reba, Miss BM America 2015, was one of the winningest females we have shown. She has some of our most predictable and consistent genetics in her pedigree. Breed her to King George and the results are these 2 gorgeous females. They are square hipped, straight topped and have tremendous muscle depth. Big REA's on both. Both girls are exposed to Amazing Britches for more predictability. Too hard to choose—take them both home!

EMS Pistol Annie - Cow Family

RES CHAMPION MISS BEEFMASTER AMERICA 2015, one of our young Donors that is headed to the top. There's a lot of power steering in the bottom side of a pedigree. Without the power of a momma, amazing babies would never be born. Beefmasters is a maternal breed and the proof is right here. We all need to credit the Cow Families that get the job done. In some of Pistol Annie's first offering, she produced 4 of the top bulls at our 2020 Bull Sale. She not only has the perfect phenotype, she also has performance to go with it: REA 12.36, %IMF 3.93. These are great genetics you want to incorporate in your herd. Pistol Annie is more of what we at ER call "the good stuff."

Bubba is built as good as they get structurally and phenotypically. He consistently stamps his calves with unmistakable class, style and the "Bubba Butt". Pistol Annie, a picture perfect female, Res Ch Miss BM America 2016, HLS Gr Champion Female, has fast become a top donor at ER. She is one of the winningest females we have ever produced. And she is producing champions, Bet on Rocky, that Vicente Garza owns and Prince Harry that Brock Clay owns. Cross these 2 great champions and Bet on Pistol is the result. "Teter", as she is affectionately called, is a classy, beautiful, feminine female with humongous bone, sweet front, massive hip and a landing strip on her top. Beauty and Performance. Bred to Elvis or Amazing Britches for an easy calving experience. The power in the blood is passed on for generations. We will be hearing about "Teter" for generations to come.

Pistol Annie, Res Miss BM America 2015, is one of our top donors. She is one of the winningest females we ever produced. The Pistol Annie x Headliner cross has produced some of the top selling bulls in our bull sales. This family of cattle has been so predictable and consistent at ER. Check out the bone and muscle in these females, plus their extended fronts and straight tops. Being bred to Elvis, the calves should come here small and grow like weeds. Your biggest challenge, which one do you pick? Or, do you keep these sisters together and you own the market for them!

EMS Headliner

EMS Headliner is the first National Beefmaster Performance Champion. He was also the 2012 Reserve National Champion Bull and the 2011 & 2012 BPG Show Bull of the Year. Headliner has either won it himself, or produced the champion of every major Texas livestock show, plus winning Grand Champion at the North American International at Louisville. He had a 15.03 REA, a 1.54 REA/CWT and a 2.50 %IMF, ranking in the top 20% of the breed for low BWT and top 20% for REA. He has produced the Grand Champion Female and the Grand Champion Bull at every major Texas livestock show, more than once, as well as the 2015 Miss Beefmaster America. His latest accolade, he produced the 2016 National Champion Bull and the 2018 National Champion Bull and the winningest Beefmaster Bull in the history of the breed, EMS Bet On Bubba. If you need meat, muscle and power in your herd, this is the bull for you. If you need performance in your herd, this is the bull for you. EMS Headliner meets the expectations of our herd, "Where good looking cattle perform!" Just remember, you CAN have it all.

This is one gorgeous, homozygous black female. Moderate framed, stout as a Mack truck, you can land a plane on her top, unreal muscle in her hip, and polled. We have never had a heifer that is such an easy keeper as this one. We showed her a couple of times, then last summer turned her out in the pasture. She has had nothing to eat except grass and hay and she stays town dog fat. Take her home and you won't have to buy any of this high priced feed for her—low maintenance, feed efficient female—what every man wants!

EMS Captain Britches

The 2013 Reserve National Champion Bull, as well as the 2013 Grand Champion Bull of the San Antonio Livestock Show with very limited showing. EMS Captain Britches has outstanding performance numbers with a 15.26" REA and a 3.63 % IMF. He ranks in the top 15% of the breed for WWT and YWT, top 25% for SCR, top 25% for REA, top 5% for %IMF and top 13% for \$T. He exhibits tremendous meat, muscle and thickness. Captain Britches has sired champions at JBBA Nationals and numerous other livestock show champions, including the Grand Champion at the 2016 Houston Livestock Show. If you need to add these traits to your herd, here is the bull to use. It also doesn't hurt anything that he "looks good!" The only difference between a show bull and a pasture bull is a "bubble bath and a haircut". Remember, at Emmons Ranch you can have it all: Where good looking cattle WILL perform!

Magic Me will make "magic" in your herd. The cross of Captain Britches and Johnny Cash daughters is a stunning mating. Add in the prolific donor, Magic Colors who produced EMS Headliner, EMS Color Me Sugar—EMS Ring of Fire's dam, and too many others to mention, shows Magic Me is from star lineage. The charisma here is what makes incredible champion cattle. She has tremendous muscle and volume, straight top and is beautifully fronted. We flushed her 3X in 2021. Flush records on request. Make your own "magic" with Magic Me.

This little sweet pea here shows you first hand what Magic Me can do crossed on King George. She is super complete, stout boned, big bodied with plenty of muscle shape, beautiful necked and is polled to boot. You have a choice here, the mama or the baby. What a tough decision, or you could just buy them both and keep 'em together—the best option!

Tough decision here. 2 Captain Britches daughters out of 2 phenomenal donors at ER. Your decision is on which donor suits your operation best. A—Polled. Queen of Dreams 777 has made a huge impact at ER already. When Bruce first saw 777, he asked if she was in the sale. Simultaneously, we said, "NO". At the rate she produces heifers, there may never be another one offered for sale. One of her progeny is a black young herdsire in this sale, Lot 4. All I can say about him is, he's a "RIP"! Jerry and Tammy Thomas picked another young herd sire, EMS Bet On Brady, out of her to breed in their program. The Bubba Fever bull we are currently showing is also out of her. We have only been blessed with 2 heifers and we are offering one here for you in this sale. 777 is a HERD bull producer and her daughter should be also.

Tough decision here. 2 Captain Britches daughters out of 2 phenomenal donors at ER. Your decision is on which donor suits your operation best. Lot B—EMS The Heart Won't Lie, scurred, is exceptional in every way, big bodied, stout hipped, lotsa bone, beautifully fronted and extremely feminine. Reba, Miss BM America 2014, has been a mainstay at ER for several years. She was one of the winningest females ever at ER. She has produced so many winners, in every aspect. She is backed by genetics that are timeless at ER. You won't have to lie about her—your heart will fall in love with this sweet girl.

VFF Elvis

Elvis is a unique mating adding performance numbers to our cattle. He ranks in the top 1% of the breed in CE, BWT, MWWT, & \$M, top 2% for WWT, top 3% for \$T, top 4% for YWT, top 5% for Milk plus sports a 15.7" REA with a 4.01 %IMF. His sire CJ's Motown is a trait leader for BW, WW, YW, SC, TM & CE boasting a \$T of \$170.14 and a \$M of \$48.52. He expresses the phenotype of long extended front, massive top, square hip and tremendous muscle while possessing the "look" we strive for in our cattle. His babies should be what the beef industry is demanding.

Big, stout CF Sugar Britches daughter. She's long, deep bodied and heavily muscled. Black Jack and Tiger Queen on the bottom definitely add more great ones to her pedigree. She's raising a herd sire prospect on her side by Bubba. Bubba is a great choice, as you can see, to produce your next herd bull, or he is eligible to sell in our annual Bull Sale. Add this proven package to your herd.

EMS BET ON BUBBA - Proven - Predictable

No Photoshop, no smokescreen, no glitter, no sales pitch and no stretchin' the truth. My vocabulary is limited and not impressive, but that doesn't change what my eyes and 47 years of breeding Beefmasters see in this incredible animal. Built from the ground up, we see a bull that stands on a massive set of feet that are made correctly. The amount of bone he has is truly incredible. His skeleton is loose and clean jointed, with an amazing amount of cushion when he reaches forward and sets it down in his track. As I look up from the ground, the rest of him is as true as presented. He has mind boggling amounts of power, muscle, rib shape and look. Bubba wears the pants at Emmons Ranch, they're a very big set of pants and he wears them well.

In an industry that is struggling to get a bull sound enough and powerful enough in the same package, Bubba checks all the boxes. From a breeding standpoint, it is a breath of fresh air to see a bull with this amount of product on a correct skeleton.

Bubba has proven himself as a dominant sire in commercial herds across the US and in several foreign countries. Bubba is a dominant sire in the show industry, not only in Beefmasters, but American influenced steers and heifers. Foreign countries are also seeing his worth and ask for him by name.

Better load up while you can!

Sale Terms and Conditions

BIDDING: Each animal will be sold to the highest bidder without reserve.

BIDDING DISPUTE: The auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final

CASH SALE: All sales are for cash unless satisfactory credit arrangements, including any possible reservation of security interest by the seller, have been made with the seller prior to sale. The failure of a member buyer to pay the appropriate party the sale amounts when due may constitute a cause for exclusion from BBU pursuant to Article I, Section 10 of the BBU Bylaws.

BUYER'S RISK AT THE TIME OF SALE: The risk of loss and injury of each animal passes to the buyer as soon as it is sold; however, it is the obligation of the seller to ensure that sold animals are fed and cared for free of charge to the buyer until loaded for shipment or until the expiration of 24 hours after the sale, whichever occurs sooner.

CERTIFICATES OF REGISTRATION: A transferred certificate of registration must be furnished by the seller free of charge to the buyer for each animal within 45 days following the later of either the date of sale or upon the receipt of full payment.

HEALTH GUARANTEES: Unless otherwise announced, the seller guarantees that all animals are eligible for interstate shipment as required by applicable federal and state regulations.

ANNOUNCEMENTS: If there is any inconsistency in information in terms of the sale materials (e.g. sale catalog, supplemental sheets, sale day announcements), 1) sale day

announcements will control over both the supplement sheet and the sale catalog, and 2) the supplement sheet will control over the sale catalog.

IDENTIFICATION RESPONSIBILITIES: 1) Prior to the sale, the seller must ensure that each animal has a readable permanent identification mark (tattoo, hot-iron brand or freeze brand) corresponding to its registration identification and 2) The buyer must check all permanent identification marks for accuracy upon possession and report any discrepancies to the seller immediately.

ARTIFICIAL INSEMINATION (AI) CERTIFICATES AND EMBRYO TRANSFER (ET) BILLS OF SALE: AI certificates and ET bills of sale will be the responsibility of the seller. CONFORMANCE WITH REGISTRATION GUARANTEES:

 The seller guarantees that all sold animals are registered in accordance with the rules of BBU and 2) The seller guarantees to the buyer that all sold animals conform to the registration certificate as entered in the Herd Book of BBU.

OFFICIAL BBU INFORMATION: All existing available official BBU information, including calf source, service sire and/or potential service sire (registration numbers) and performance data must be included in the final sales catalog.

PEDIGREE, PERFORMANCE AND GENETIC INFORMATION GUARANTEES: The seller guarantees to the buyer that: 1) the pedigree, performance data and genetic information, as represented in any sales materials (including sale catalog, supplemental sheet or sale day announcement), are accurate; and, 2) all information from the BBU database is accompanied by an accurately stated "as of" date.
